Julie Bodart – BPM/ARIS Consultant

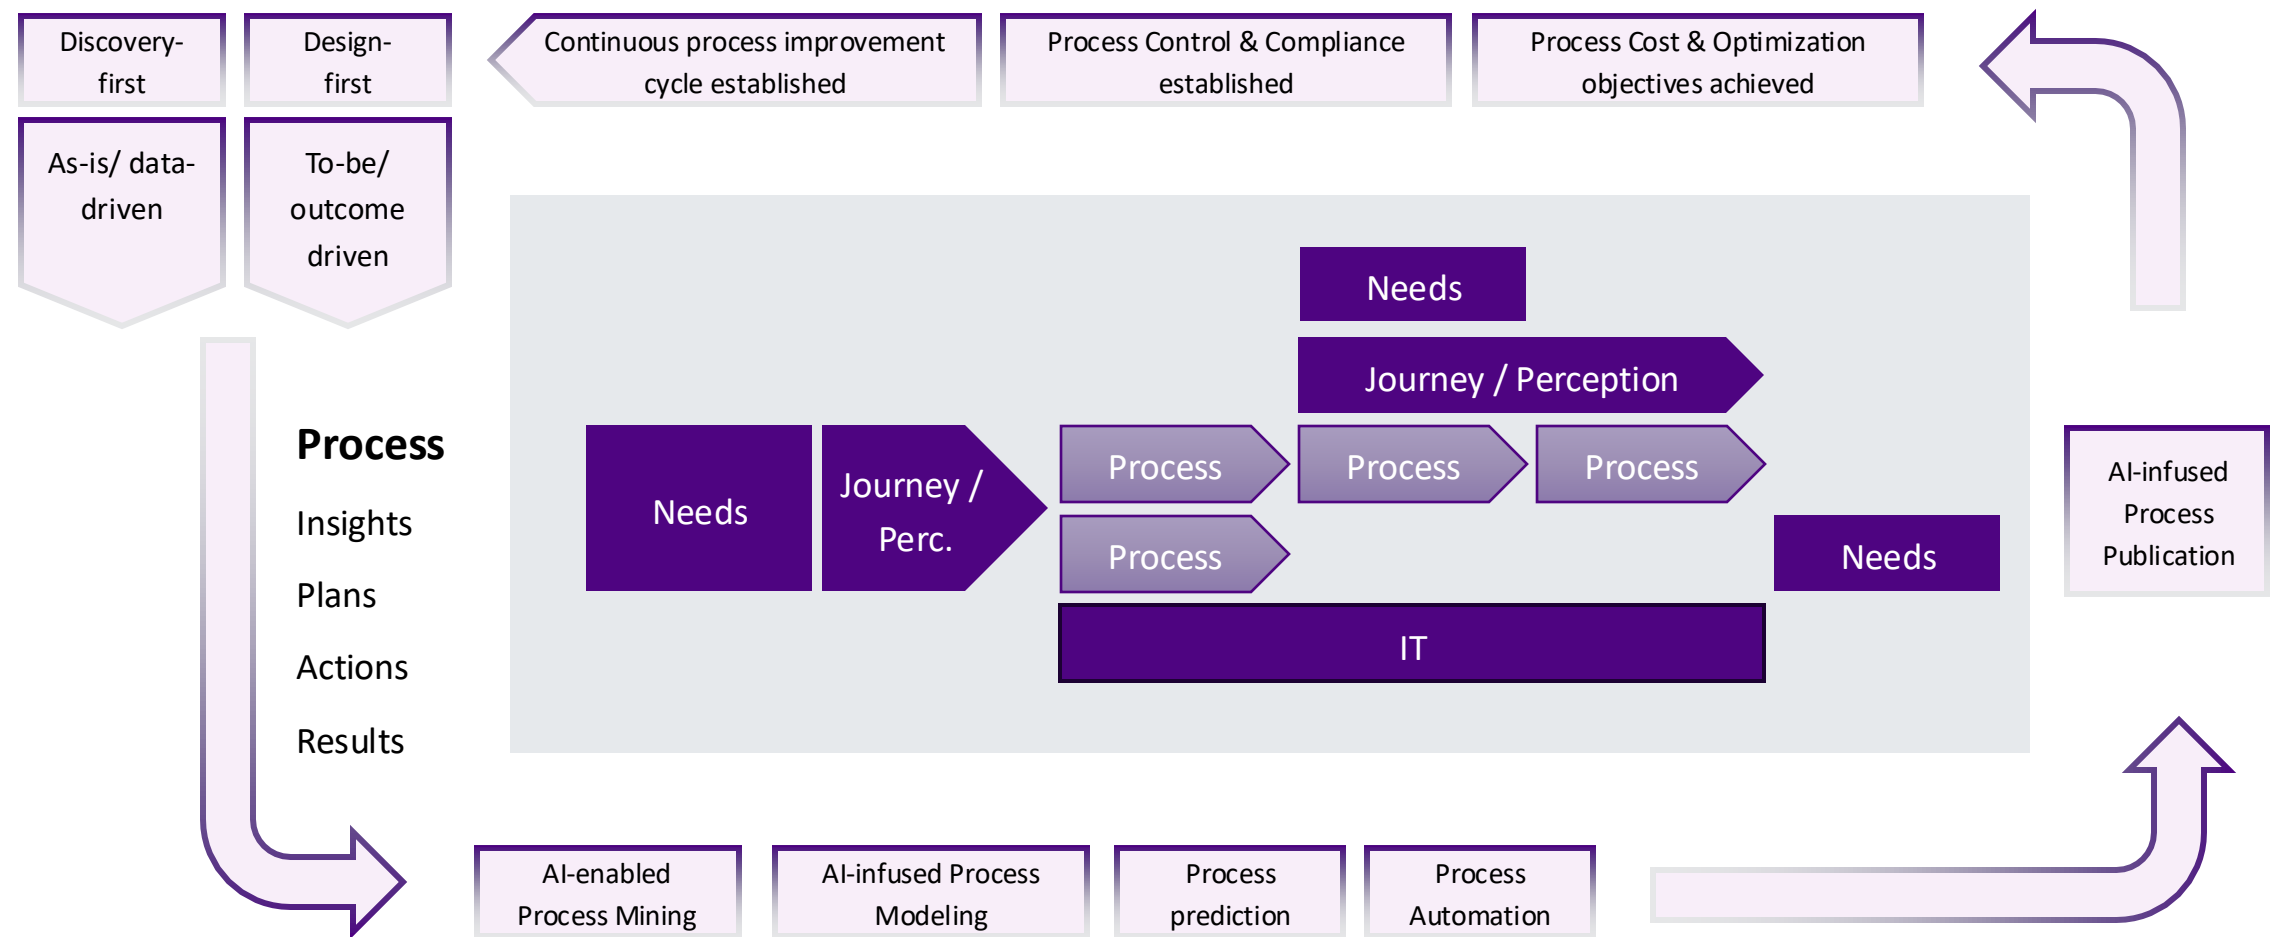

AGENDA

ARIS – A Suite Approach

WITH A COMPREHENSIVE AND INTEGRATED PLATFORM, OUR CUSTOMERS CAN OPTIMIZE PROCESSES AND DRIVE TRANSFORMATION END-TO-END

Business processes make or break the experience

Release strategy for 2025+

ARIS' product innovation will be made available at a higher cadence

2025 will offer up to **12 monthly releases** applicable for SaaS public, SaaS private cloud customers

Why?

Adoption of standard release cycle principles with faster feedback options due to earlier shipments.

Options?

Limited options available on shipping cadence in private cloud scenarios to meet special organizational needs (e.g., audit needs).

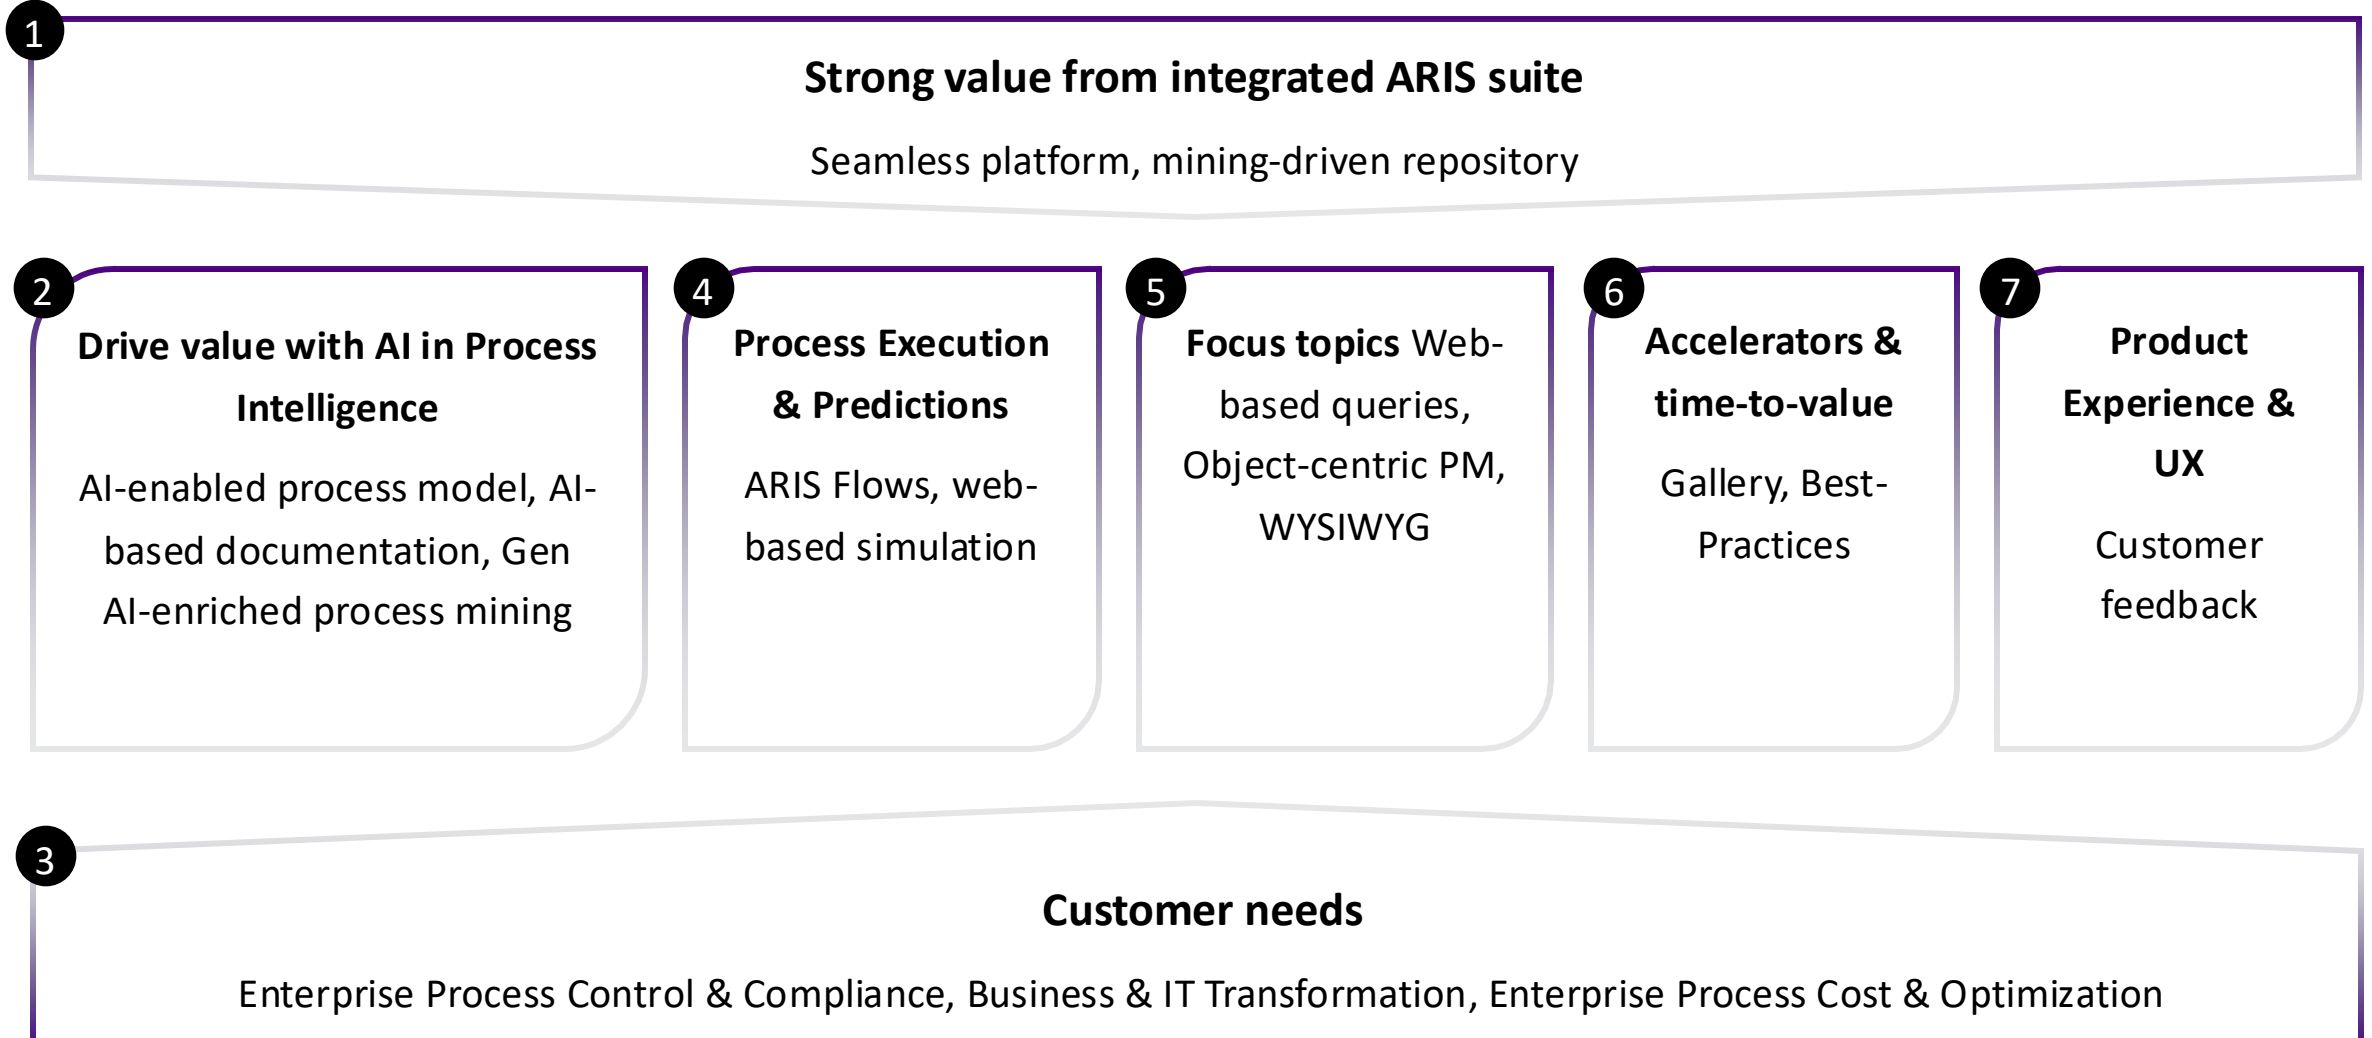

Shipment cadence:

- SaaS public: monthly
- SaaS private: monthly/half-yearly (YYYY.4/10)
- On-prem: yearly (YYYY.10)
- On-prem 2025: additional 2025.4 release

What else?

More continuous releases mean continuous flow of innovation in more digestible chunks.

Focus areas for 2025

| Workspace | Q1-2025 | Q2-2025 | Q3-2025+ |
|------------------------------|--|---|---|
| ARIS Enterprise - Admin | | <ul style="list-style-type: none"> Harmonized administration of standard workflows Data sync and data import from 3rd party systems | <ul style="list-style-type: none"> Versioning of scripts |
| ARIS Enterprise - Designer | | <ul style="list-style-type: none"> Attributes containing multiple values AI-based modelling to consider repository content Enhancements for Customer Journey Mapping Inherit model attribute values within a hierarchy TOGAF 10 compliance | |
| ARIS Enterprise - Viewer | <ul style="list-style-type: none"> Keep defined column width in tables of ARIS portal | <ul style="list-style-type: none"> AI-based search: part III More formatting options expand the flexibility to layout the home page Edit toolbar of portal is fully configurable Select object in model when comment is selected in Collaboration Use WYSIWYG editor to configure the Catalog view Apply preset filters on portal search results to enhance relevance and boost engagement New Enterprise Search - find content from the "Documentation" tab Shape your own navigation experience | |
| ARIS Enterprise - Viewer PRO | | <ul style="list-style-type: none"> ARIS Search as an input type for Dashboards | |

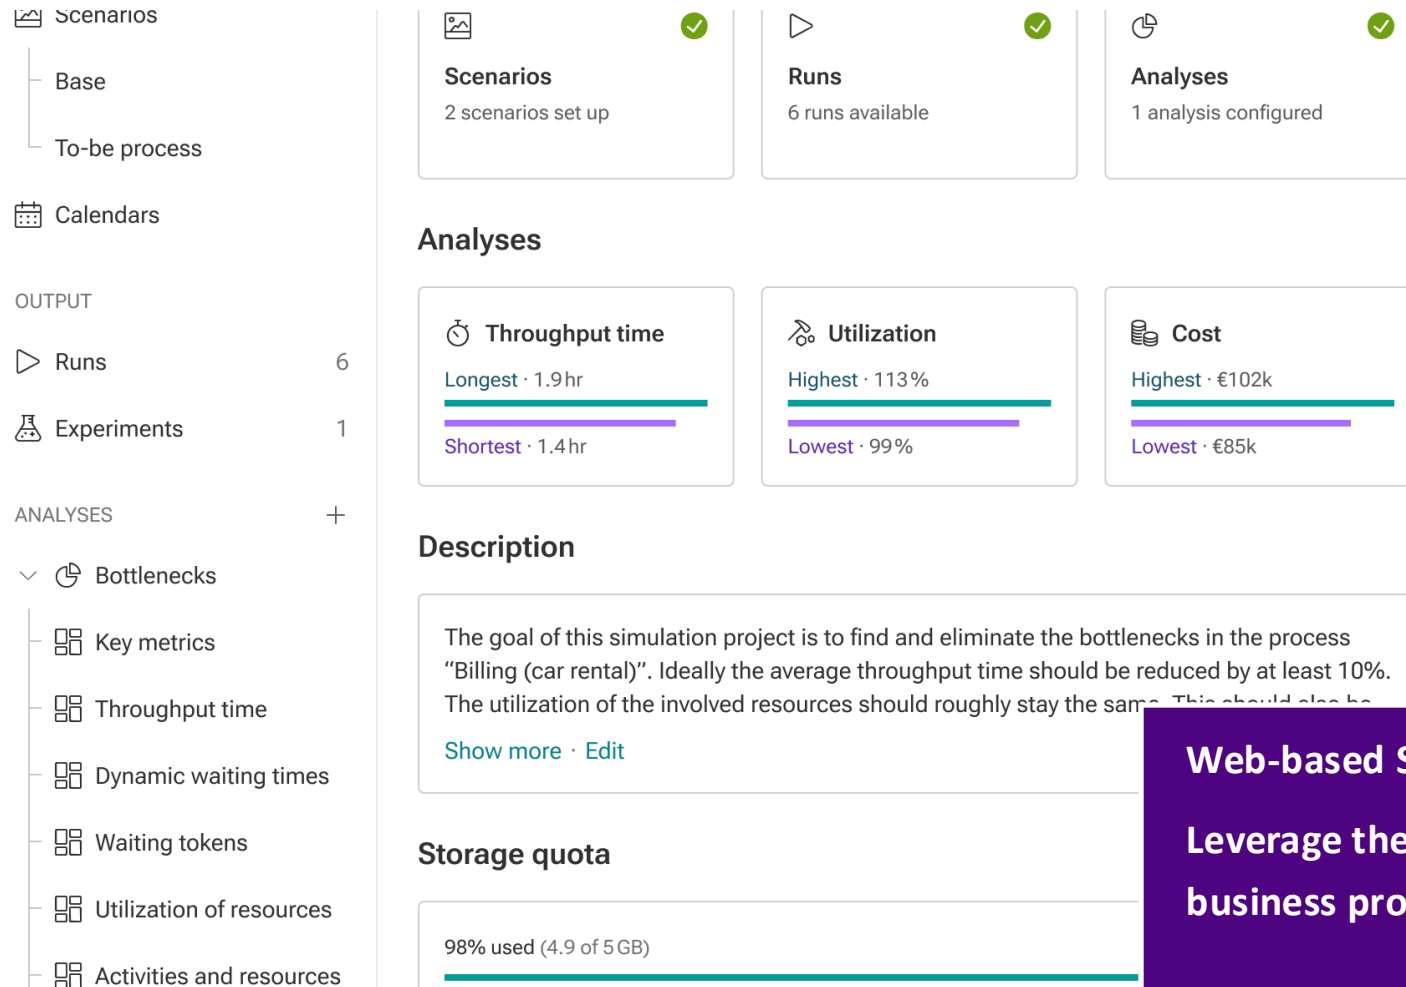

| Workspace | Q1-2025 | Q2-2025 | Q3-2025+ |
|--|---|---|---|
| ARIS Enterprise - Server/Enterprise Server | <ul style="list-style-type: none"> ARIS Flows - pre-MVP | <ul style="list-style-type: none"> Accelerator exporter for BPA Gallery AI-enabled how do I ARIS Flows - MVP Bring AI-enabled workflow design to all ARIS editions with GA Content type configuration using XML | <ul style="list-style-type: none"> Fast track the publication of editorial changes Make available improved standard workflows for all ARIS editions Make changes on migrated governance workflows Multi-level standard approval workflow Release collections of ARIS contents Change project room ownership (BPA) Dashboards on the ARIS Gallery |
| ARIS Extension: Risk & Compliance | | <ul style="list-style-type: none"> Enable to define a specific time span for reviewing tasks (questionnaire, risk). Manage renaming of ARIS databases in R&C usage Improve management of R&C environments and roles Risk and Compliance Admin - ARIS report buttons at forms and lists Risk and Compliance SSC to reduce customizing migration effort - configurable 2, 4 or 6 eyes principle Risk documentation and mapping without modeling | |
| ARIS Extension: SAP Solution | <ul style="list-style-type: none"> Enable update of BPMN models and SVG in SAP Cloud ALM | <ul style="list-style-type: none"> ARIS - SAP Cloud ALM: Simplify synchronization by addressing a single SAP destination as standard Simplified start of SAP transaction start in web | |
| ARIS Extension: Simulation | | <ul style="list-style-type: none"> MVP for ARIS Simulation in the web | |

A few interesting ones:

- Attributes containing multiple values
- AI based modeling considering existing content
- Use Wysiwig editor for Catalog item
- Flow (workflow in ARIS)
- New simulation engine
- Object centric mining (MVP)
- Release collection of content

- Please access via <https://ariscommunity.com/user/login?destination=/product-roadmap-release-planning>

Web-based Process Simulation

Web-based Simulation (new product in 2025)

Leverage the power of prediction and simulation to define and analyze business processes before implementation.

Exciting News: ARIS Idea Portal Migration!

- **New Aha Instance:** All ideas, votes, and comments have been migrated. The portal will be public by February 12, 2025
- **Access the New Portal via the :** <https://aris.ideas.aha.io/>

What Stays the Same?

- Create new ideas
- Vote on existing ideas
- Comment on existing ideas
- Track the progress of your ideas
- All migrated ideas, votes and comments will remain associated with their original users

What's New?

- To enhance security and protect proprietary information, the idea portal is now private. This means you must be logged in to work with the Ideas Portal.
- We have added Single-Sign-On to the ARIS idea portal via the ARIS Community. That means, you can use your ARIS Community credentials to sign into the Ideas Portal.
- A comprehensive guide on how to log in to the new ARIS Ideas Portal will be provided to all previous users of the ARIS Ideas Portal via e-mail, once it is public

Important Note

- Some statistics, especially for merged ideas, might not fully reflect the previous instance.
- Ongoing clean-up and maintenance will be performed.
- A comprehensive

Mission

ARIS acts as the **business transformation suite** that gives companies full control over all areas of their operations, from strategy to execution, allowing organizations to achieve **operational excellence** that is both **sustainable and compliant**.

ARIS offers an **independent** and **all-in-one suite** that grows with our customers' needs.
